- ☐ Water Bottle
- ☐ Hay Feeder Box
- ☐ Dried Pinecone
- ☐ Rabbit Specific Toy
- ☐ Slicker Brush
- ☐ Salt & Mineral Wheels
- ☐ Hiding Place
- ☐ Chewing Sticks

Caution

Lionheads need to be groomed regularly to prevent them from becoming sick. They cannot cough up their hairballs causing gastrointestinal stasis and a visit to the vet or death.

Please do not feed your rabbit anything without checking if it is poisonous to them or not. This will lead to death.

Do not suddenly change their diet. This too can lead to death. Please slowly transition them.
